

## IndexExploit Licences

### Introduction

A range of licences are available to give you just the tools you need.

### Word Functionality

When first downloaded a software licence is applied which allows a user to make 50 menu selections without needing to buy a licence. This could be enough to index a reasonable sized book.

When 50 menu selections have been recorded the licence is expired.

In the table below a W1K licence enables Bookmark only. The licence for full Word embedded index functionality is W30K.

Allowed Menu Selections	Licence
Software – All below	50 menu selections
Bookmark	W1K
Mark entry	W2K
Automark file	W3K
Index	W10K
Adjust	W20K
Export	W30K

### PDF Functionality

When first downloaded up to 100 PDF searches are available. After that the PDF component of the licence is expired. Adobe Acrobat Pro or equivalent with Adobe Inter Application Communication (IAC) is required for operation on a computer or network. This is not needed for Internet or Intranet operation.

The full licence for PDF functionality is P2K

Allowed Menu Selections	Licence
Software – All below	100 menu selections
Current PDF	P1K
Any PDFs	P2K
